## COMSC INSTRUCTION 7650.1

Subj: MILITARY SEALIFT COMMAND CHART OF ACCOUNTS

1. Purpose. This instruction establishes a formal basis for the definitions of the General Ledger Accounts (*GLAs*) to be used within the Military Sealift Command (*MSC*).
2. Background. The definitions of *MSC's* *GLAs* were previously published in the NAVCOMPT Manual, which has been replaced by DoD's Financial Management Regulations (*FMR*). The new definitions of the *GLAs* have been updated to the control structure in use in *MSC's* Financial Management Information System (*FMIS*).
3. Scope. The *GLAs* of this Chart of Accounts apply to all users of *MSC's* *FMIS*.
4. General. The definitions of the *GLAs* have been provided separately. The definitions will be available on Local Area Networks as separate *GLA* pages for reference by all users.
5. Changes. Users of the Chart of Accounts wishing to have *GLAs* added or deleted, or definitions changed, should send a request to COMSC (*N85*) for consideration. The request should indicate a proposed *GLA* number and why the change is needed. Suggestions for improved wording may also be made. COMSC *N85* will staff the request with other users, and either make the change or advise the requestor why the change was not made. Changes will be promulgated by E-mail when *GLAs* are added or deleted, including a new electronic version for insertion into the local file if appropriate.
